

# The Rooster

NEWSLETTER FOR THE **PARISH OF ROOS**  
June 2022

## EDITORIAL

There's lots happening in the village over the next few weeks. We urge you all to roll out your bunting and flags and decorate the outside of your homes, and wear red, white and blue! Please do email us your photos as we're having a bumper Jubilee edition next month.

Talking of volunteers, we'd really like some more volunteers to join the Rooster delivery team. Either have a word with Liz Earle if you know her or drop us an email on roosternews22@gmail.com if you can help - comments, news, info and articles are also welcome.

The editors and committee reserve the right to accept or refuse submissions and edit for content and length. The opinions expressed here do not necessarily reflect the views of the newsletter.

## ROOS SUMMER SHOW

**The schedule for the Summer Show will be hitting your letterbox in the next few weeks.**

With the changing, warmer temperatures, myself and all the members of the Roos Show committee are starting to think a lot about how the show will look this year. We were really thrilled by how many of you joined us at the Spring Show a few weeks ago and we want to celebrate in a very big way on the playing field this year, I'm sure all of you do.

**I hope the date, Saturday 9 July is marked in your phones or highlighted in green (what else) on your calendars. Are you coming to join us? I really hope so.**

I've already done a few weeks of planting generously gifted seedlings, little plug plants, cuttings and sowing a few herbs and flowers. So I'm sure lots of you are doing the same and maybe some of those early green shoots will grow to become worthy entrants in our popular fruit

and vegetable classes.

Water them like they'll become award winning champions is all I can suggest, warm sunshine and a bit of TLC should do the rest.

Why not encourage your kids to get in on the act too - I've noticed packets of seeds at the supermarket which are as little as 20p and perhaps they can be inspired to grow some entries for one or more of our kids classes.

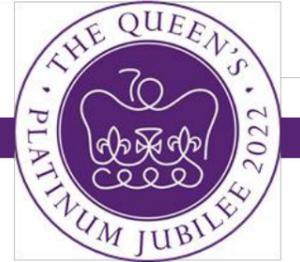

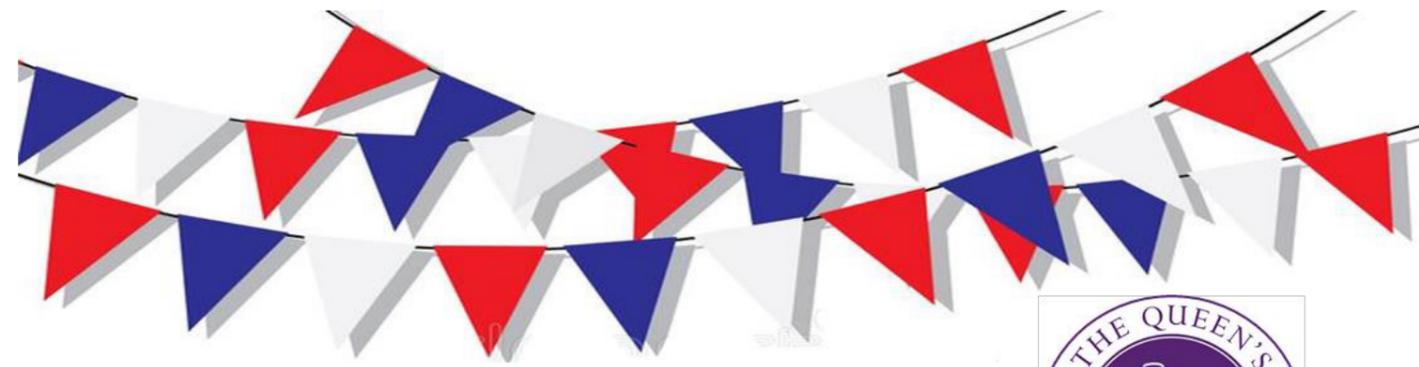

Sunflowers and broad beans are always popular with youngsters as they often germinate super quickly even on a window ledge. Chillies, beans and strawberries grow well in simple terracotta pots. Develop their green fingers and it's a life lesson they'll never forget.

Let's hope the sun will shine on us and we can sit outside with cake, tea and sandwiches maybe even a BBQ and celebrate a proper traditional show. I look forward to seeing you all there.

Linda Barker, President of Roos Show
